

Fly Reduction/Abatement April 2014

Does the MBTC support the City of San Diego's "Fly Reduction/Abatement Plan" of action created after the City's study and confirmation of a fly problem that is unique to Mission Beach? There was a general discussion of the City's Plan. A member said that he is working with several property managers for a private second trash pickup during the summer for rental units. If private pick up is implemented, Residents will also be able to participate in second weekly pick-up for a fee. He is also working to get a trash can cleaner to service Mission Beach. He will have a booth at the May 17th information fair. He plans to be online by the fair date. Bob Ruane said that he has trash can locks for any resident who is interested. (bob@beachcomesrealestate.com, 858- 488-1400). It was moved and seconded to vote on the measure. The measure passed, with 31 voting in favor and 0 voting against.
