

Excessive Noise April 2015

The Mission Beach Town Council is committed to addressing and resolving the matter of excessive noise in our community, especially noise emanating from loud and unruly parties and street gatherings. To that end, the Town Council will work with the San Diego Police Department, Northern Division, other City officials, the University of San Diego and other colleges, and property owners and managers, through on-going dialog and actions directed at mitigation of such noise wherever possible within the limits of the law. A motion was made and seconded. The vote was unanimous in favor of the resolution as written.
